FUSION rappresenta la parte coordinabile e universale delle nuove proposte Hatria: vasi e bidet, sospesi e a terra, dalle forme moderne e alla moda.

Superfici pulite e continue fino a terra e assenza di fregi sono alcune delle caratteristiche dei vasi e bidet di FUSION, abbinabili con i lavabi delle più recenti proposte di Hatria: i sistemi Area e Grandangolo.

FUSION is the part of the new Hatria range intended for universal application, in combination with items from other series: wall-hung and floor-mounted WCs and bidets, with modern, fashionable shapes.

Streamlined surfaces leading right down to the floor and an absence of ornamentation are some of the characteristics of the FUSION WCs and bidets, which provide an attractive match with the washbasins in the latest Hatria collections: the Area and Grandangolo systems.
